## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, 15, and 28-31, drawn to an apparatus for programmably generating an illumination pattern in class 355/67.

Group II, claim(s) 8 and 9, drawn to a self-tuning filter in class 436/523.

Group III, claim(s) 10-14, drawn to a fractionation device in class 162/24.

Group IV, claim(s) 16-22, drawn to a process for using a programmable illumination pattern generator in class 716/19.

Group V, claim(s) 23-25, drawn to a flow control in class 204/547.

Group VI, claim(s) 26 and 27, drawn to a process of programmably encoding a planar assembly of particles in class 382/128.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Inventions I-VI are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
